What do you have to do?

- Complete a project design and description and begin a project to demonstrate your talent and expertise in your particular category. Projects will be presented and adjudicated in April. You are required to spend a minimum of 100 hours on your project but in reality, most students spend many more hours than this. You may use some class time to work on your project but only 40% of your project can count toward a letter grade in a course or program. The majority of the project must be done outside of class. A rule of thumb would be 6 out of 10 hours or 60% of total time logged.
- Log and record your work. You need to present your logbook at time of adjudication as evidence of the work performed and your learning. (A sample Log format is attached to the end of this document. Feel free to copy and use this if you do not have one of your own.)

When can you start?

- The earliest you can start is July 1 of your graduating year.

How are you scored and what is required to qualify as a scholarship-eligible candidate?

- The bulk of your score is based on your project adjudication on District Scholarship presentation day in April. A minimum project score of 60% is required to be eligible for scholarship. Candidates must also meet graduation requirements by Aug. 31 in order to receive the Ministry of Education.
- Where applicants exceed the number of awards available, the best 5 courses (including a Language Arts 12) taken in the graduating year will be included in the calculation to make up 25% of a candidate's final score.

When and where are projects presented and adjudicated?

In general, all projects will be presented and adjudicated at your own school or virtually online between April 19th and May 5th. Be sure to speak with your scholarship counsellor to determine the exact schedule for your adjudication as we get closer to April. Early adjudication opportunities are available... please speak with your counsellor.

- **Fine Arts** presentations require tech and rehearsal times. Attending rehearsal is **mandatory**. Participants who miss assigned tech rehearsal times may not have their projects adjudicated. Tentatively, tech rehearsals will be scheduled the morning, afternoon and evening before presentation day as facility availability permits. Participants must be available for their appointed times. Be sure to speak with your counsellor to determine the exact schedule and process of your adjudication.
- **Writing projects** (plays/scripts and creative writing) must be submitted by March 5th. (see further conditions below)
- **Community Service** projects will be adjudicated to a panel of adjudicators. Each student will have 10 minutes to present their community service project. Presentation appointments will be arranged and announced in advance. Again these may be in person or online. Please confirm with your counsellor.
- **Technical Trades and Training Projects:** A100 Hr. project and presentation is required in one of the TTT areas identified above.

How do I get my project to the presentation site?

- You are responsible for project transportation, set-up and removal. More information will be provided closer to the presentation date.

What if my plans change and I choose to defer my graduation to the following year?

- Course work and graduation requirements must be completed by August 30, 2021. Students who defer graduation to the next year will not be eligible for an award. This is specified in Ministry Award guidelines.

How are scholarships decided and what happens if I deemed eligible?

- The adjudicated project score (60% minimum) will qualify you for a scholarship pending completion of graduation program requirements. (Before Aug. 30). After the School District submits the list of qualified candidates in early September, the Ministry of Education sends notification letters to eligible scholarship winners. A \$1250 voucher redeemable at an accredited post-secondary institution will follow in November. A list of approved post-secondary institutions and further information is available at www.bced.gov.bc.ca/awards. Or here http://www.aved.gov.bc.ca/find_an_institution/welcome.htm

Additional service to school and community (up to 40 hrs) may be used to meet the 100 Hour service requirement. Print or digital media may be used in project development and presentation.
